Super Important to Know About Me

- ☞ I'm super cynical in terms of geek communities, in this case "otaku" culture, so most of my opinions are fairly harsh
- ☞ Hopeful in terms of the anime industry, no hope for the anime community >.>

- Entitled anime fans
 - Piracy
 - "I can't afford to buy anime" but spend hundreds of \$\$\$ on cons, merch, cosplay, etc.
 - "Anime elitists"
 - "How could you like this anime? How could you *not* like this anime? Everyone knows anime "fact" how can you not? Everyone's seen *anime*, how can ppl. not know about it?"
- Older fans gatekeeping
 - Gatekeeping in general
 - Heck, present anime fans 'gatekeeping'/in-jokes making it harder for bringing in new blood
 - Which can lead to debates of "what anime are good for getting in new ppl./"gateway anime" "
 - (which leads to my quasi rant of why shows like AoT/SnK, KLK, SAO, moe in general, pretty much anything popular the last few years are terrible for bringing in new ppl.)
 - You know, anything so routed in "otaku" culture that it would be loss on any n00b
- Moe being my most hated genre but mostly most hated fandom
 - Perfect example of rampant manchildness, "anime expert", butthurt, "Serious business!" wrong w/ 'otaku' culture nowadays
- Old vs. new fans
 - Only watching older series vs. only watching newer series
- *Too many youngsters
 - Or 'anime n00bs'
- Fans ruining the industry
 - Harshing everyone's mellow
 - Everything being "serious business"
- VAs being idolized
 - Vs. other positions/ppl. in the industry
- Older anime better than new anime & vice-versa
- Fandoms ruining everything
- Precious freakin' OTPs
- Everyone gets butthurt so easily
 - Love/hate a show someone feels the opposite about
 - Ditto for characters
 - Criticizing/critiquing a show
 - Esp. if it's popular

Convo

Jumpstarts

**However, feel free to bring up whatever*

- Public's view of anime nowadays (is it being taken more seriously? Less? Hasn't changed all that much?)
- Places like Hot Topic, etc. (places associated w/ a more tweenage demographoc) selling animu stuff causing anime to be associated w/ tweenagers/seen as "childish"
- Anime cons being overrun by tweenagers?
- Youngsters ruining everything (w/ their hyperbole, over zealotness, know-it-all attitude, etc.)
- Elitism in the community & its negative effects

- 2fer: [1] is geekery being seen as "in"?; (which leads to), [2] leading to more ppl. whom previously didn't see themselves as geeks/hated geeks now claiming to be animu fans (who could honestly care less/"fake geeks")
